

Compliance Requirements for Coach and PSV Operators — Checklist

backwatch.co.uk

Implementation Checklist

- ☐ Confirm operator licence obligations: All camera and sensor systems that are part of the vehicle's declared specification must be maintained and functional.
- ☐ London routes — DVS/PSS: Any coach entering Greater London requires a valid HGV Safety Permit. PSS fitment (CMS + BSIS + MOIS) is mandatory for low-rated vehicles, which is most coaches.
- ☐ PSVAR routes: Scheduled service coaches should have boarding area camera coverage and LOLER-compliant lift monitoring.
- ☐ FORS/CLOCS: Check contract requirements for each project or site — FORS Silver may be specified. Review against FORS V7 if using articulated configurations.
- ☐ UK GDPR: Complete the DPIA, document the lawful basis, install vehicle privacy notices, and document the retention policy before deploying any interior camera system.
